SUMMARY

Computer Engineering student with a strong academic record (CGPA: 9.35) and hands-on experience in data analytics, software development, and web scraping. Proficient in Python and JavaScript, with practical exposure to real-world data workflows including data collection, cleaning, preprocessing, and exploratory analysis. Experienced in applying foundational machine learning techniques to derive insights and support data-driven decision-making. Strong problem-solving skills backed by a solid understanding of Data Structures and Algorithms.

EDUCATION

Bachelor Of Engineering (B.E)

Aug 2023 - May 2027

Saraswati College of Engineering , Kharghar , New Mumbai

Bachelor of Engineering (B.E) in Computer Engineering

Current CGPA : 9.35

PROFESSIONAL EXPERIENCE

GoPerspective Technologies LLP

Software Developer Intern

Mar 2025 - JUNE 2025

- Managed internal data tools to streamline data collection and reporting workflows.
- Built and maintained web scraping pipelines (Scrapy, Selenium) to extract large-scale data from multiple platforms.
- Cleaned, validated, and preprocessed data to ensure accuracy and reliability for analysis.
- Analyzed datasets to generate insights and support client reporting.
- Improved dashboard performance and visualized key metrics for better decision-making.

Labmentix

Data Analytics Intern

Mar 2026 – Present

- Working on real-world data analytics projects involving data cleaning, preprocessing, and exploratory data analysis.
- Assisting in analyzing datasets to extract insights and support data-driven decision-making.
- Collaborating with team members to build reports and improve data workflows.
- Gaining hands-on experience with analytical tools and techniques in a professional environment.

PROJECT

ShikshaSetu : One-Stop Personalized Career & Education Advisor

- Developed a full-stack web application using Next.js, React, and Tailwind CSS to deliver personalized career guidance.
- Integrated Gemini AI with psychometric analysis to evaluate user interests, skills, and personality traits for accurate career recommendations.
- Designed an intuitive and responsive UI to enhance accessibility and user engagement.
- Conducted real-world testing with teachers and 12th standard students, incorporating feedback to improve recommendation accuracy and usability.

NeuroPhysio AI : AI-Powered Rehabilitation Platform

- Built a full-stack physiotherapy platform with real-time pose detection (TensorFlow MoveNet) for accurate exercise tracking, rep counting, and form correction.
- Developed a low-latency FastAPI backend with WebSocket streaming and a responsive React + TypeScript frontend.

- Integrated Gemini and Groq AI for clinical insights, personalized exercise recommendations, and automated report generation.
- Implemented Firebase Auth & Firestore for secure user management and scalable data storage.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript, HTML, CSS
- **Data Analysis & Machine Learning:** Pandas, NumPy, Data Cleaning and Preprocessing, Introductory Machine Learning, Data Collection, Web Scraping
- **Web Development:**
Frontend: HTML, CSS, JavaScript, React, Tailwind CSS
Backend: Node.js, Express.js
Databases: MongoDB, MySQL
- **Tools & Technologies:** Git, GitHub, Visual Studio Code, Postman, Selenium, Scrapy
- **Core Concepts:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Problem Solving
